WORK ON SEWERS TO START SOON ACCORDING TO MAYOR ANDERSON

Supervisors Complete Preliminaries for New Road Where Line Will Be Laid

TRUSTEES READY TO PROCEED

The biggest single project looking toward the advancement of Ukiah, the completion and enlargement of the sewer system, will soon become a fact, according to Mayor George Anderson. This week the supervisors completed their part of the preliminary step of obtaining the right of way for the road from Perkins street to the old asylum road, along which the sewer outlet is to be laid. It remains only for the city trustees to complete their part by obtaining the rights of way for that portion of the road lying within the city limits. Mayor Anderson states that these deeds will be obtained immediately, as the terms have already been arranged with the property owners, and it is his hope to see the contract awarded and the dirt flying before he goes out of office in April.

This will be good news to about a third of the population of Ukiah, who have been without sewers for these many years, while at the same time paying taxes to defray bond interest and principal on the old system and like payments on the septic tanks, from all of which they have never received one iota of benefit.

The Dispatch has made a hard fight on this issue and it is with the utmost satisfaction that we see our labors about to bear fruit. We have been severe in our criticism of the board and probably have aroused the resentment of the city administration to some degree. However, we have endeavored to maintain a strictly impersonal attitude, for we have the highest personal regard for the members of the city board and the city employees. But where so important an issue is at stake a newspaper cannot let personal inclinations sway its course. That is the unpleasant feature of journalism. The compensating thought comes from the consciousness of a good task well done.

Ukiah is due for a period of expansion and progress never before equalled in her history. With the sewer problem out of the way we may now unite and put our shoulders to the wheel with a right good will and lift Ukiah to its rightful place as the cleanest and most attractive little home town north of the bay.

ADVANCE DOPE SAYS GOOD SHOW AT STATE

Vaudeville Next Tuesday Evening Offers Well Rounded Program

The audience at the State were more than pleased with the special vaudeville program put on last Tuesday evening. Manager Roberts says he has another as good if not better coming next Tuesday.

Jackie Brunea, a musical comedy favorite, is a pretty girl with a popular repertoire. She has a pleasing voice, much above the usual, and a sparkling personality.

The Alhambra quartette, one of the favorites of vaudeville comedy audiences, are a bunch of harmony funsters, with a number of comedy hits and a routine of special songs. Their voices are well blended and they are a sure-fire feature.

Alfredo, the wandering minstrel, is a clever novelty musical offering, with a few laughs here and there. Alfredo is an old performer with a number of burlesque instruments which add to the originality of his act and which he handles quite cleverly.

Lavine and Lavine are a man and woman in a comedy knockout acrobatic act that is considerably different from the ordinary run of this sort of offering. They do some neat tumbling and some comedy feats that are bound to make you laugh.

The show is well balanced and ought to please everybody.

KEDAR COWSERT CALLED BY DEATH AT ST. HELENA

Kedar Cowsert, one of the best known ranchers of the Ukiah valley, passed away at St. Helena last Thursday. He mas a native of Missouri, where he was born March 31, 1859. He had resided in this valley for some twenty years, engaging in ranching until just recently, when his failing health forced his retirement. He then bought a place in town and had not been active for some months. A few weeks ago he went to St. Helena for a course of treatment in the hope of improving his health.

The remains were brought here for interment and the funeral will be held this afternoon at 3 o'clock at the Eversole mortuary.

Mr. Cowsert was an honest, upright citizen and was highly thought of by all who knew him. The utmost regret attends his passing.

He leaves a widow, to whom the sympathy of all is extended.

ARRESTED FOR HUMBOLDT COUNTY AUTHORITIES

Douglas Montgomery, aged 22, was arrested here last Saturday by the sheriff's office on a warrant from Eureka charging him with contributing to the delinquency of a minor. He was taken to Eureka by a deputy sheriff to stand trial on the charge.

ROAD MATTERS DISCUSSED AT MEETING HERE

Improvement of Hopland-Cloverdale Grade Urged Pending Construction of New Route

FAVOR GLENN-LONGVALE ROAD

The advisory corps of the Redwood Empire Association, met jointly with the members of the board of supervisors of Mendocino county at a luncheon on Wednesday. N. P. Howe, chairman of the board, presided and F. C. Handy, acted as secretary.

After a full discussion of highway matters and problems here in Mendocino county, the meeting urged the Redwood Empire Association by a unanimous vote of all present, to use every effort for the better maintenance and improvement of the state highway from Cloverdale to Hopland, on the west side of Russian river—pointing out that the many dangerous curves should be eliminated and the road made safe for the traveling public—that while those present were in favor of the road being re-located on the east side of the river, that a number of years would elapse before a finished highway would be provided, and that during all of this time the present road would be used, and it should be given proper attention and made safe in every respect.

The meeting strongly urged the association to bend every effort for the completion of the entire Redwood highway from Sausalito to the Oregon State line—the speedy completion of both the McDonald-to-the-Sea, and the Tahoe-Ukiah highways.

That the association go on record and use their influence towards the passing of the bill recently introduced in the United States Congress, for an appropriation of $250,000.00 for a survey and the appropriation of money for the construction of a coast line highway, along the coast of California.

The meeting recommended to the association the forming of a joint highway district comprising Mendocino and Glenn counties for the locating and constrution of a highway commencing at a point in Glenn county, on the Pacific highway, running through Round valley and intersecting the Redwood highway at a point north of Willits near Longvale, thence through Willits west to Fort Bragg on the Pacific ocean. It was the sense of the meeting that such a road would prove a valuable feeder to the Redwood highway.

Mr. and Mrs. Louis Hofman went to San Francisco Sunday.

WANTS COOPERATION TO BUILD COVELO ROAD

George Biggar, prominent Covelo merchant, was in Ukiah on business the past week. Mr. Biggar is much interested in seeing the road built from Covelo to the Sacramento valley and also from Covelo to Longvale, cutting out the mountain road between Dos Rios and Laytonville.

According to Mr. Biggar the complete road from Williams to Longvale will cost in the neighborhood of $1,000,000. Of this sum state and federal aid may be obtained to the amount of $600,000. This leaves about $400,000 to be raised, which it is his proposal to raise by establishing a road district composed of Glenn and Mendocino counties. While here he attended a meeting of the supervisors in order to persuade the Mendocino county board to attend a joint session with the Glenn county board to take steps preliminary to forming the district.

He states that the Glenn county board is in favor of the road and of forming the district to finance it.

Little Wallace Van Dyke, son of Mr. and Mrs. Volney Van Dyke, who was ill with pneumonia for several days, is now out of danger.

Mrs. F. W. Reynolds, who was in San Francisco for several weeks, has returned to her home in this city.

AGED MAN DISAPPEARS; MAY BE SUICIDE VICTIM

W. H. Van Voast disappeared from his home in this city last Tuesday evening under circumstances which lead his family to believe he has made away with himself.

He was last seen at home at about 6 o'clock in the evening. On Wednesday morning the sheriff's office was notified and search parties were formed. His old clothing, his match, a lodge pin and a small amount of change, in a purse, were found in an old chicken house near Gibson creek. He had changed into his best clothes before leaving and also is said to have taken with him or destroyed a picture of himself, as the frame was found empty on Wednesday.

The vicinity of his home and the Gibson and Orr creek canyons have been combed for some trace of him, without success, and it is the general opinion that he has made away with himself in some remote place.

He is over 80 years of age, and had been suffering considerably from rheumatism. He is said to have talked despondently to his acquaintances and friends recently.

TO SELL CITY PROPERTY

The board of city trustees met in a special session last Tuesday evening for the purpose of taking steps preliminary to selling property belonging to the city on Orr creek.

The lot proposed to be sold we understand comprises about an acre in the bed of the creek on which the old dam belonging to the first water works ever established here is located. A portion of the old dam is still standing.

The lot adjoins the former Kleyn-Schoorel place, now the property of Jack Waldorf, well known San Francisco newspaper man. Recently Waldorf had an offer for the property and the buyer desires to incorporate the old city dam site in his holdings.

FORT BRAGG BURGLAR TAKEN AT YORKVILLE

Accused Man Also Passed Fictitious Check on Hopland Woman

FORT BRAGG, Feb. 15.—Harry Reiter, a drifter, was arrested by Deputy Sheriff McCabe near Yorkville last Thursday while making his getaway after having robbed the Windsor hotel in this city.

Reiter, a few days previously, had passed a fictitious check on Mrs. Frank Dooley, of Hopland, representing himself to be an advance agent for a movie concern. He then made his way to Fort Bragg. Here he stopped at the Windsor hotel and Wednesday evening robbed the till of $85 while Mrs. Perkins was called out of the office for a few moments.

Deputy Sheriffs McDaniels and Weger, who were at Fort Bragg at the time, investigated the affair and their suspicions were attracted to Reiter. The latter left Fort Bragg Thursday with a traveling man while they were looking for him in order to make an arrest. Sheriff Byrnes was notified and was given a description of the car and sent McCabe to intercept it at Yorkville.

Reiter acknowledged passing the check on Mrs. Dooley but denied the other charge until Saturday night, when he confessed to McCabe.

His preliminary has not yet been held.

CURRENT COMMENT

Congress is confronted with a number of perplexing problems, among which are Farm Relief, the Mexican Immigration problem, and the Merchant Marine. There is now a surplus of agricultural products in the United States so far as the home market is concerned; as to what is the best solution for the farmer the ablest economists and also agriculturists disagree among themselves.

* * * * *

One of the experts of the American Telephone Company, has recently invented an instrument through which a man speaking in an ordinary conversational tone can be heard distinctly a mile distant. The discoveries and triumphs of scientists have become so frequent and so amazing, that the most marvelous achievements by them scarcely excite comment any more. Where will they stop?

* * * * *

Farm relief certainly does not lie along the lines suggested by some of our congressmen and senators at Washington to make heavy appropriations to reclaim or develop large additional areas of agricultural lands such as the Columbia river basin project. To do this would only make matters worse by increasing the surplus of agricultural production. The primary motive behind these schemes is to get large appropriations to spend in the respective districts of the sponsors of these propositions.

* * * * *

Recently a writer speaking of the proposed Columbia river basin scheme puts it quite tersely by saying that it is a proposition for all of the people to give several hundred million dollars, to help a part of the people to raise more crops to sell to all of the people, when there are already more crops produced by this part of the people, than all of the people can consume.

* * * * *

The foregoing comments do not apply to measures like Flood Relief for the Mississippi valley, and the Imperial valley. These are vitally necessary for the protection of human life to say nothing of the tremenduous property losses that are involved, and they should be given immediate and ample consideration.

* * * * *

The fact seems to be indisputable that under present conditions, Mexican immigration is increasing yearly by tens of thousands, both legally and illegally, bringing with it the menaces of disease, ignorance and low standards of life. On the other hand as education increases it seems that there is less and less inclination for the American youths to do manual labor, and if Mexican immigration is shut off, there will be an ever increasing shortage of labor to properly care for our agricultural and industrial needs. It is a most difficult problem.

* * * * *

The recent statement of Admiral Plunkett before the congressional naval committee, that war between the United States and Great Britain in the near future was inevitable, has created quite a commotion both in America and Great Britain, so much so, that President Coolidge, breaking his usual silence in such matters has felt called upon to announce to the world that the sentiments expressed by the admiral, do not represent the views of the administration nor of the American people.

It seems that our naval and military authorities can always be depended on to say and do just the wrong thing on all occasions, in peace times.

CRASH ON CLOVERDALE HILL BRINGS JUDGMENT FOR $300

SANTA ROSA, Feb. 14.—Holding that the defendant's admission that his car was about a foot over the center line of the Cloverdale-Hopland grade, on a steep grade, wet and recently oiled, fixed upon him the negligence that caused the accident, Superior Judge R. L. Thompson granted G. S. Martin judgment for $300 damages from Louis Rue is an automobile collision suit, tried recently. Rue, according to the judge's opinion, should have kept well on his own side, under existing highway conditions, and should have kept his car well under control. Martin had sued, through Attorney H. B. Churchill, for $306.46, while Rue on cross-complaint asked $250. Damages on the cross-complaint were denied.

SHARPS AND FLATS FROM UKIAH HI

The concert given Thursday night at the grammar school auditorium by the high school band and orchestra was a big success. The orchestra, which gave the first part of the program, played its numbers exceedingly well and was received with enthusiasm. The last number on the orchestra part of the program, "Persian Night," proved a great treat.

Mr. Falkenberg Interested

Between the band and orchestra program Mr. Falkenberg, the new secretary of the chamber of commerce, was introduced by Mr. Fulkerson. Mr. Falkenberg spoke about the musical activities in Arcata. He was secretary of the chamber of commerce in Arcata and was a great factor in forming the uniformed band in Arcata. Mr. Falkenberg was greatly surprised to find that the musical organization of Ukiah high school was so well developed. Next came the band program and the audience received another greater treat. The soloist of the band program was Everett McCreary, the 12-year-old cornet player. After the concert, punch was served to the musicians by Mr. and Mrs. Falkenberg.

HIGH SCHOOL STUDENTS' PRUNING CONTEST

The third annual high school students' pruning contest was held on the Ridgewood ranch, Willits, on Saturday, January 28. Teams from Upper Lake, Lakeport, Middletown, and Willits high schools participated. Each team consisted of three members who were selected by the local agricultural high school teacher.

Each boy was given one bearing tree to prune and was judged on a percentage basis on his pruning ability and oral reasons.

The Willits team, composed of H. Christie, J. Walker, and A. Frost received high honors and was awarded first place with 769 points. The other teams finished in the order named—Lakeport 760, Upper Lake 701, and Middletown, 643 points. H. Christie of Willits, was high man in the contest.

The judges of the contest were C. S. Myszka, farm advisor; O. Tadlock, horticultural commissioner; J. J. Thornton, pear grower of Potter valley.

Each year the agricultural boys of Lake and Mendocino counties look forward to this pruning contest which is made possible through the generosity of C. S. Howard, owner of the Ridgewood ranch. In addition to providing his orchard for the pruning work, Mr. Howard has furnished annually to the boys, a lamb barbecue, also serving beans, bread, coffee and cake. The feeds have been ably put on by Mr. and Mrs. Kavanaugh, managers of the ranch.

The boys are fortunate in having such a friend as Mr. Howard and it is needless to say that his hospitality and generosity were appreciated by the contestants and guests.

One of the interesting observations noted in this year's contest was the increased knowledge of the fundamentals of pruning displayed by the boys and the improvement in their work over the previous years.

Mrs. Nellie Schaeffer, who has been visiting her daughter, Mrs. E. P. Thurston, in this city for several weeks, left Wednesday for her home in Fort Bragg.

COAST NOTES

(Mendocino Beacon)

Forty Cents Offered for Coast Wool

The wool market has materially strengthened in the last several weeks and the outlook for lambs is particularly bright, so that the sheep men of Mendocino county are faced with prospects of an excellent year.

Large quantities of interior fine wool have been purchased under contract by San Francisco buyers at prices ranging from 37 to 40 cents, but up to two weeks ago on this coast where mostly one quarter and three-eighths blood wool is grown, practically no contracting had been done up to the fore part of this week. At that time Ed Haehl of near Cloverdale representing a big wool buyer and Chas. H. Cooley of Cloverdale, representing J. W. Salz Co., came to the coast and it is understood that they have contracted a large portion of the coast clip at 40c for 12 months wool. The supposition is the fine wool will now be taken at an advance of two or three cents over this price.

Contracts have been made recently for spring lambs at prices up to 14c at shipping points for Sacramento and San Joaquin valleys for early delivery and for later June delivery, 12½c was contracted.

The season has been very favorable and a large lamb crop is available. It would seem good prices would prevail throughout the season.

Summer Weather

Beginning Monday, the sixth instant, this county has experienced four or five days of most delightul weather. After the slight rain of last Sunday, the weather cleared and Monday dawned bright and unclouded and by mid-forenoon the temperature had risen to almost our usual summer level. There was no wind and not a cloud to be seen. The thermometer stood well up in the seventies and people were going about in their shirt sleeves. The weather prevailed until Friday, when the temperature dropped rapidly to freezing, there being a slight frost in the early morning.

New Hotel for Fort Bragg

FORT BRAGG, Feb. 10.—At the men's lunch held at the Community club Thursday a number of matters of importance to Fort Bragg, were discussed. Charles Perkins spoke on the subject of a larger and more modern hotel and stated that capital for such a structure was available as soon as some city improvements were made. This capital would be available without the formation of a stock company as was at one time planned. He mentioned the present condition of the sewer system as a drawback to the building of such a structure. The matter of improving the sewer system will be brought up at the next meeting of the city council.

It was agreed that the improvement of the McDonald-to-the-Sea highway would bring many more tourists to Fort Bragg and the work of the highway committee and others for the securing of further aid for this project will be kept up.

Assemblyman Melville stated that a National Auto Association representative would be here shortly in the interest of a highway from Canada to the Mexican line along the coast. A military highway on this location has long been talked of and will no doubt some time become a reality.

W. J. Schultz is to get up a brief concerning the McDonald-to-the-Sea and the Navarro river to the Gualala routes to be presented to the Redwood Empire Association, which is showing a growing interest in the coast section.

Big Whale Ashore

ELK, Feb. 9.—A sixty-five foot whale washed ashore near the Walter Smith ranch about a mile and a half north of Greenwood and has attracted quite a number of visitors to that part of the coast during the last few days. Some of the Anderson valley schools shut down for a day to give the pupils an opportunity to view the monstrous creature. The time so spent, we understand, was considered as part of their nature study and could not have been better applied along that line. According to experts this class of whale averages one thousand pounds to each foot in length which would make the one here weigh over thirty tons. Those of this part of the country have practically all viewed the remains and now the big problem arises as how to dispose of the immense hulk. There is no drift wood in the neighborhood with which to burn it and as it is high enough on the beach as to preclude the possibility of its floating off, it is expected that before many days instead of being a source of curiosity it will be a perfect nuisance.

The general opinion is the whale was struck by a ship as there is an immense gash underneath and towards the rear of the body which could not have been made by any of its natural enemies such as thrashers and swordfish.

Falls on Axe; Cuts Leg

Anthony Lemos, while at work in the mill pond Tuesday, met with a painful accident as he was engaged in walking a log. The log began to roll and the boy was obliged to jump from one log to another. On one of the logs a double bitted axe was imbedded and young Lemos hit it when he leaped to the log, cutting his leg severely. Dr. Preston attended him and gave him first aid, after which he was removed to the Redwood Coast hospital at Fort Bragg.

Albion Woman Falls; Breaks Leg

Mrs. Emma Peterson, wife of C. R. Peterson, a resident of Albion, broke her leg when she fell in her own yard one day the first of the week, fracturing the foot. She was taken to the Albion hospital where Dr. Leidig attended her and after taking an X-ray decided to send her to the Redwood Coast hospital for treatment. She will probably be there for about 30 days.

Panther Killed at Comptche

COMPTCHE, Feb. 10.—Comptche is adding to its reputation as a section where big game may be taken. This week "Fat" and Bill Clow, with their two valuable hounds, treed and killed a female panther about eight miles from the Philbrick ranch toward Anderson valley in the Bailey ridge section. After the trailing and treeing of the animal and its dispatch by the hunters, the dogs took another track, probably that of the male. However, it was then growing late and the dogs were called off.

The two hunters are making the Philbrick ranch their headquarters for several days, working out from this point, and it is expected that they will secure another cat before they leave. A small panther was seen a week or so ago not far from the ranch.

Several panthers have been killed on or near this ranch in the last couple of years. In the first instance several sheep had been killed and the work was at first thought to have been that of a bear. It turned out to be that of a panther and two were shortly thereafter taken by B. L. Elliott and Harry Bivans.

Mrs. Elizabeth Myring is quite seriously ill at the home of her daughter, Mrs. R. D. Russell, and Dr. Preston was called out to attend her on Thursday. The aged lady is 81 years of age and has been quite feeble of late.

Miss Elizabeth Ciro, daughter of R. P. Ciro of this place, has been in Lane hospital where she recently underwent an operation. She has left the institution and is now making a good recovery.

BRIDGE INSTRUCTION

Bridge enthusiasts of Ukiah are reserving as far as possible the week beginning March 5th for the series of lessons to be given by Mrs. Arthur McCray at Hotel Cecille. The date was announced in advance that it might be possible to reserve the dates for the series of lessons which Mrs. McCray will give.

Those who were privileged to belong to the former class of instruction speak in the highest terms of the lessons given. Many who were desirous of joining the class at that time were prevented from doing so by previous engagements. It is for this reason that Mrs. McCray is returning to Ukiah.

Should a large percent of the bridge players of this town follow the rules given by Mrs. McCray the parties, which are the main feature of all entertainment, will be much more enjoyable to all.

Mrs. McCray is a pupil of Milton C. Work, accepted authority on bridge. Classes will be held both afternoon and evening, March 5 to 9, inclusive.

OIL WELL AT MATTOLE RUNNING 100 BARRELS

Product Said to Be Sixty Per Cent Gasoline by Head of Company Promoting Development

EUREKA, Feb. 13.—Eureka had another oil thrill yesterday when a bubbling, steady stream of oil flowed over the top of Etter Well No. 2, in Mattole Valley, 60 miles south of here. The flow had been curbed tonight until a new casing can be sunk and a "production string" of tools put in use, but officers of the North County Company, the owners, estimated that the production would run at least 100 barrels a day.

HEAVY GAS CONTENT

Oil from the shaft is of the highest grade paraffine base, more than 60 per cent gasoline.

"We could just about run automobiles on the oil without refining it," one of the company heads said in commenting on the quality of the output.

Etter No. 2 is located about 200 yards from another well of the same company, which two years ago came in with a preliminary flow estimated at 300 barrels a day. The well, however, caved in and was lost before it could be completely cased and cemented.

As a result of the discovery, Mattole Valley yesterday was the mecca for hundreds of motorists from all parts of the county. Samples of the fluid from the shaft were on display in many downtown business houses today.

IS LOCAL CONCERN

The North Counties Company is a local concern, composed chiefly of Humboldt county stockholders. Ernest M. Matthews is the president. About three miles away from the Etter holdings is another well being sunk by the Humboldt Oil Company, capitalized in San Francisco; and the Sureshot company, also of the bay city, is erecting a drilling rig.

Mattole Valley from pioneer days has been known as a probable oil field, because of the innumerable seepages of the fluid in all parts of the valley. Oil exporation work has been going on there sporadically for half a century.

NEW ACTION INDICATED BY SNOW MOUNTAIN CO.

Application Granted for Permission to Raise Pillsbury Dam 60 Feet

The application of the Snow Mountain Water and Power Co. to raise the upper Pillsbury dam 60 feet on the upper Eel river, was granted last week by the state and work is to start at once. The project will involve a great expenditure of money and will take three or four years to complete.

Will Greatly Increase Water Supply

The additional acre feet of water impounded in the dam will be more than three times the present impoundage. The recent survey discloses that the sixty-foot dam will bring the water above the present ford on Rice Fork going to Rice valley, and that a bridge will have to be constructed.

All of the present Gravelly valley will be flooded with water which will extend to the Sam Rhodes place near Fuller's.

Hundreds of men will be employed on this large project and the payroll will be exceedingly large. All brush and timber will be cut and grubbed out of the proposed floodel area.

New Power House

A new power house is soon to be constructed below the Pillsbury dam, the concrete foundation for which has already been completed.

$4,000,000 to Be Spent

The power and irrigation projects under way or proposed involve a total expenditure of nearly $4,000,000 by the Snow Mountain Co.

CAR IN COLLISION WITH COAST POWER LINES

FORT BRAGG, Feb. 15.—An automobile driven by Arthur Koskela of Albion crashed into a power line pole at the top of Noyo grade opposite the Noyo schoolhouse early last Sunday morning. The pole was knocked down and in falling tore down the pole next to it. The impact with the pole caused the door of the auto to fly open and the falling pole tore the door off the car, which goes to show what a narrow escape the occupants of same experienced from sudden death. The live wires became entwined in the wreckage and it is reported that Koskela suffered a burn on the head from one of them. The power was shut off and the automobile was able to proceed under its own power. Koskela stated that he had just had his brakes adjusted and that he made a slight application of them which caused them to grab and skid his car sidewise into the electric power line pole. No one in the car received any very serious injury except Koskela, who was burned by the live wire.

Mrs. J. C. Reifschneider and daughter, Nita, made a short visit in San Francisco the first of the week.

RICHMOND-SAN RAFAEL FERRY COMPANY GETS OFFER OF $1,250,000

Bridge Company Makes Tender to Owners of Rival Concern

An offer by Ray O. Long, successful bidder for a franchise to erect a bridge across San Pablo bay from McNear's Point, Marin county, to Richmond, to purchase the ferry property of his unsuccessful competitors, the Richmond-San Rafael Ferry company, for $1,250,000 has been made and will hold good for nine days, it was announced this week at Martinez by A. F. Bray, one of Long's attorneys.

Bray offered to deposit $50,000 toward the purchase price within five days and the rest within ten days if the offer is accepted.

The attorney pointed out that the bridge that Long, president of the Richmond-San Rafael Bridge, Inc., will construct, is two miles distant from the ferry line and there is nothing in the law that makes it incumbent upon his client to acquire the ferry firm.

It was indicated that no further overtures will be made to buy the ferry, but that Long is ready to abide by the offer he presented before the supervisors if Van Damme and his associates in the ferry company are ready to accept the $1,250,000 tendered.

The purchase offer was made prior to the Contra Costa supervisors' bridge hearing with the idea of eliminating Van Damme as a competitor, but it is understood the ferry executive demanded $1,500,000 for the business.

MRS. OLIVE BUSCH WINS HIGH COLLEGIATE HONORS

Mrs. Olive E. Busch will leave for San Jose on Tuesday where she goes to be initiated into Kappa Delta Pi, a national educational fraternity, a chapter of which is now being organized at the San Jose State Teachers' College.

At this institution, on January 27, Mrs. Busch completed the required work for a Bachelor of Arts degree with a major in elementary and junior high school education. She will return to the college again in June and participate in the annual graduation ceremony at which time she will be granted a B. A. degree.

While at the college, Mrs. Busch was a member of Sigma Mu, the college honor society and of Sigma Tau Kappa, the degree fraternity, and will now be a charter member of Kappa Delta Pi, the national society.

Mrs. Busch was vice-president of the January graduating class and member of its executive board.

She may locate in Berkeley, and if so will probably work toward a master's degree in education at the University of California.

Mrs. Busch was formerly a member of the Dispatch-Democrat staff and this paper and its many readers will rejoice at the success that has attended her collegiate career.

TWO LARGE PANTHERS KILLED ON DILL RANCH

Last week Melvin Hotell, the new owner of the Dill ranch near Laytonville, killed two large panthers which were treed by his faithful stock dogs. Both panthers were in one tree. These varmints had been doing considerable damage in that vicinity and the neighboring ranchers have been hunting them for some time.

If you have any odd jobs, day work or otherwise, phone 77, Chamber of Commerce, and tell us. We have applications for work on file. 21-tfc

Mr. and Mrs. L. E. Mustard and family spent the holiday Monday at the George Gibson home in Potter valley.

Chamber of Commerce

Chambers of commerce are the recipients of criticism which is, unfortunately, in too many instances justified because of their failure to develop the interest of the individual member in the problems of the organization.

The Ukiah Chamber of Commerce is getting its 1928 start under the management of a new secretary, and a newly elected board of directors, who appreciate the fact that the organization will be no better than the interest of the individual member.

The first definite attempt to establish the membership interest will center about group meetings of the entire membership during which meetings the individual will be called upon to express his opinion as to the most constructive work which the chamber of commerce can concern itself with during 1928.

Ten group meetings will be held during the next two weeks, and each group will meet a director of the chamber of commerce acting as chairman of that particular group. The entire membership of the organization, through these ten groups, will be invited to take an active part in developing a definite program of work for the chamber of commerce.

Monday, February 20, will find the first group meeting at the chamber of commerce rooms with F. W. Sandelin, chairman; the second group will meet Wednesday evening with J. A. Jamison, chairman; the third group on Thursday, A. D. Scott, chairman; the fourth group on Tuesday, February 28, with W. D. L. Held, chairman and the fifth group with E. L. Albertson, chairman, on Wednesday, February 29.

Groups from six to ten inclusive will be carried on under the chairmanship of the new directors who will be in office after Tuesday, February 28.

Every member of the chamber of commerce will be properly notified of the group meeting which he is expected to attend, and it is the sincere urge of the board of directors that the membership assist the new secretary in his work by attending these group meetings, and acquaint him with their views as to the needs of the community.

During the year the membership will be called upon in various ways to assist the secretary and the board of directors in promoting those things which will tend to make Ukiah an even better place in which to live.

HELP US SOLVE A PROBLEM!

As far as the new secretary is able to ascertain there is no employment agency in this city. Almost daily, individuals are seeking employment through the medium of the chamber of commerce, and to date, practically no opportunity presents itself to assist them.

Most of these applicants for work are from men and women whose usual source of employment is rather quiet at this time of the year, but would accept any kind of employment until their particular line of activity opens up,

Citizens of Ukiah surely must have odd jobs available to these applicants who invariably express themselves as anxious to take any work which will help them pay living expenses.

If you have work of any kind, housework or jobs about your premises, do a real community service by phoning the Chamber of Commerce, Phone 77.

The members of the Mendocino County Real Estate Board attended the annual banquet of the Santa Rosa board in the Occidental hotel in Santa Rosa, Thursday evening, February 16. President Hal G. Hotchkiss of the California Real Estate Association, Vice-President Price, Mr. Barnson, Jr., son of the State Commissioner of Real Estate, and many others addressed the convention on the various problems of the profession.

The realtors and their guests who attended the banquet included: J. A. Waldteufel, M. B. Gibson, Mr. and Mrs. C. A. Bernhard, Mrs. Esther Stevens, Miss L. R. Haig, L. L. Hopkins and George Boring. Mrs. Stevens graciously consented to sing three numbers, which were particularly well received.

DEATH OF G. F. CARTER

G. F. Carter, of Redwood valley, died at Willits while on a visit to W. J. Carter of that city, last Thursday. The cause of his death was heart failure.

He was a native of Maine and was 83 years of age. He was related to the Tom Brydon family of Calpella. He leaves three sons, four daughters and a widow.

The funeral will be held here this afternoon at the Cleland chapel.

Mr. and Mrs. E. A. Cox were in from Orrs the first of the week for a short visit.

Mrs. Lucy Soawell, who has been seriously ill, was reported as considerably improved yesterday.

Gus Busch was in town from Potter valley on business last Wednesday.

WESTERN PACIFIC CARRIES FIGHT FOR ELECTRIC LINE TO I. C. C. AT WASHINGTON

Said to Be Attempting to Gain Entrance Into North-of-Bay Section

According to the Santa Rosa Press Democrat, there is a war on between the Southern Pacific and the Western Pacific over the recent acquisition of the Petaluma and Santa Rosa Electric R. R. Co. property by the Southern Pacific. Learning that the Western Pacive was negotiating for the road, the S. P. stepped in and obtained an option. Now the Western Pacific is attempting to get around the situation by an appeal to the Interstate Commerce Commission.

The Press Democrat says:

Pushing its fight for access to Sonoma county, the Western Pacific Railroad yesterday formally filed with the Interstate Commerce Commission at Washington its application to purchase the Petaluma and Santa Rosa Electric line.

While the Western Pacific officials announced two weeks ago that they would fight the merger of the electric road with the Northwestern Pacific it was not until yesterday that official action was taken.

BONDS UNDER PAR

In its application the Western Pacific said it was prepared to pay $90 a share for the common stock, but said it had no contract for such purchase. The financial setup of the short line consists of a $750,000 bond issue, of which $590,000 is outstanding, $1,000,000 in common and $250,000 in preferred stock. Of the common there is outstanding $770,700 and of the preferred, $127,800.

The bonds have a par value of $1000 and the present market price is around $850. The common stock of a par value of $100 has a market value of $45.50, and the preferred of the same par value is quoted at $87.50.

SURVEY UNDER WAY

Hopeful that the railroad commission will recognize their claim of having a prior right to purchase the Sonoma county road, Western Pacific engineers are now at work surveying a route for the proposed extension of the Sacramento Northern from a point near Napa to Petaluma. Construction of the road, which would be linked with the P. S. & R., giving this county direct rail communication with Sacramento, would start immediately if they are given permission to acquire the electric road, Western Pacific officials said.

According to gossip in railroad circles the Western Pacific was negotiating for the sale of the Petaluma and Santa Rosa when Southern Pacific officials, learning of the move, stepped in and secured an option before they had time to act.

CONTROLLED BY S. P.

In its application, the Western Pacific, according to Associated Press dispatches, set up that competition would be restricted in the territory should the Southern Pacific-Santa Fe program be permitted to go through. The interest of the territory would be better served by Western Pacific ownership of the line, it was said.

Purchase of the Petaluma and Santa Rosa by the Southern Pacific and Santa Fe would mean its absorption by the Northwestern Pacific, owned jointly by the two roads.

The Petaluma and Santa Rosa has 48 miles of trackage and runs between Petaluma, Santa Rosa, Sebastopol and Forestville. In addition it operates two steamboats between Petaluma and San Francisco.

Mrs. B. H. Chambers, of Boyes Springs, was a visitor with Mrs. June Page last week. She returned to her home the first of the week, but will return to Ukiah later for a more extended visit with Mrs. Page.

E. B. Ryan, well known resident of Northwestern, was a Ukiah visitor last Tuesday. He was accompanied by Mrs. Ryan.

Mrs. Sam Wattenberg and Mrs. Smith were in from the Wattenberg ranch on Cold creek the early part of the week.

M. of Tuesday, the 13th day of March, 1928, in the Board Room of said Board in the Court House at Ukiah, County of Mendocino, State of California, and all persons interested in said matter may appear at said time and place and show cause, if any they have, why said petition should not be granted.

FARM BUREAU NOTES

Now is the to fight pear blight. Investigations made by the farm advisor's office show that active blight exists in many of the pear orchards in Mendocino county. The heaviest concentration of the disease, however, is found in the Ukiah valley, near Ukiah. The diseased wood may be easily recognized by the dead branches carrying dead leaves, or by the dead cankers on trunk limbs and on the main trunks of the trees. Active blight may be told by ready bleeding when cutting into the diseased portions. All affected limbs should be removed and trees having blighted trunks dug up and destroyed by fire. One case of blight left in the orchard may be responsible for a million or more infections this spring. One diseased tree sacrificed at this time may save several trees later. One dollar spent now for inspecting orchards and cutting out and destroying diseased wood may save several hundred dollars fighting blight the coming spring and summer. Why not make the effort now and save the unnecessary expense, loss of time, and crop this summer? Inspect your pear trees for blight now!

A ten acre planting of chestnuts and filberts is to be made by E. S. Masters of Ukiah. The land has been cleared and is being prepared for early setting of the trees. Chestnuts do well in this county and the farmers are looking forward with a great deal of interest to the project undertaken by Mr. Masters. The venture is an entirely new one and should prove not only of interest, but of value to the future agriculture of the county.

Grimm alfalfa in the Round valley district is withstanding the present wet soil conditions better than either the Chilian or Hairy Peruvian varieties. The Grimm alfalfa stands are in a good healthy condition and should start off with plenty of vigor in the early spring. In the test work on J. I. Hurt's property, Covelo, the Grimm alfalfa out yielded the other two varieties for the past two seasons. Besides producing a larger yield, the Grimm produced a superior forage due to the leafiness and fineness of the stems.

W. D. Norton and R. D. McCallum, farm advisors of Yolo and Placer counties, spent one day in Ukiah valley studying the pear pruning methods employed in Mendocino county.

An American Farm Bureau Federation film entitled, "The Romance of Sleepy Valley," is being shown in the various farm centers this month. The centers still to have the advantage of seeing the film are Hopland, Mendocino, Redwood valley, and Anderson valley.

GOLDEN GATE COMPANY WORKING WITH W. P.

Secret Agreement Between Two, Is Rumor About Bay

The Golden Gate Ferry Company and the Western Pacific Railroad today were waging fights for permission to give service, with reports in circulation that the organizations have a secret agreement to bring competition into the north bay counties.

The Golden Gate Company has an application for a franchise to operate a ferry service between San Francisco and Point San Quentin.

Filing an application by the Western Pacific Company with the interstate commerce commission for permission to purchase the Santa Rosa-Petaluma Electric line, which the Southern Pacific and Santa Fe also seek to buy jointly, led to reports of a pact between the railroad and the ferry company.

It was rumored that if the Western Pacific and Golden Gate companies are successful in their initial programs an agreement for handling service will be entered into.

A. O. Stewart, president of the Golden Gate Company, today said:

"Once we get permission, work will start at once, because all plans are made, and three months after starting work the ferry will be in operation."

The directors of the Santa Rosa Chamber of Commerce last Thursday voted to oppose the plan of the Golden Gate Ferry Company to establish a service between San Francisco and Point San Quentin on the grounds that it would be a truck ferry and would thereby injure the business of the railroad company.—Santa Rosa Republican.

PRIVATE LIQUOR STOCKS SAFE IF NOT PEDDLED

PRIVATE LIQUOR .... 18 pt

SAN FRANCISCO, Feb. 13.—One's private stock of liquor, if it is not being sold, is as safe from "dry" sleuths today as it was before the prohibition law became effective.

Further, liquor confiscated without a legal search warrant, must be returned to its owner, and cannot be destroyed.

So ruled the United States circuit court today.

The ruling has established a precedent upon which thousands of pending cases may be decided and the government ordered to return innumerable cases of liquor.

Mrs. George Ray has returned from several weeks' visit in Oakland.

ANDERSON VALLEY

(Cleverdale Reveille)

BOONVILLE, Feb. 13.—The dance given by the farm center was well attended, about 125 dance tickets being sold and probably 250 supper tickets. The music was very good and the supper, consisting of sandwiches, salad, cake and coffee, was splendid. S. T. McAbee, V. R. Rawles, Mrs. I. C. Burke, Mrs. Thos. Ornbaun and Miss Elizabeth Clow composed the committee in charge and handled all angles of the affair in a very capable manner. The farm center is very fortunate in having such an efficient social committee for the coming year.

Mr. and Mrs. Claude Stoffel, of Healdsburg, are visiting at the W. L. St. John home this week. Mrs. St. John and Mrs. Stoffel are sisters.

Mrs. Thomas Ornbaun and sister, Miss Josie Estes, motored to Santa Rosa last week.

The report of a whale being found on the beach above Elk created a good deal of interest here and many local residents motored to the coast to see it. Although it measured 64 feet everyone seemed disappointed in the size and thought it should have been much larger. A car filled with high school students, going to see the whale, was wrecked a few miles below Navarro on the highway when the steering wheel broke and the car ran into the bank and turned over. The car belonged to J. E. Wallach and was driven by Malcolm Rawles, with Robert Hutsell, Robert Lawson, Misses Vivian Hutsell, Erma Wallach and Mildred Cooney also in it. None of the young people were hurt but the car was quite badly damaged. They were very fortunate the accident happened on a level piece of road instead of on the coast grade. Other cars from here picked up the students and took them on over to the coast.

Mr. and Mrs. J. L. Bivans have returned from a pleasant week spent in San Francisco. Mr. and Mrs. S. W. Cross, who made the trip with them, are visiting with Mrs. Cross' mother, Mrs. E. Hogan, before returning home to Albion.

Wayne P. Burke, of San Francisco, and Miss Christine Burke, of Hopland, visited their parents, Mr. and Mrs. W. P. Burke, over the week end.

Mr. and Mrs. K. B. Wallach made a hurried business trip to Healdsburg Friday.

The farm center held its meeting this month February 13 instead of the 20th. The bureau took up tree planting, from the angle of the best apples adapted to this valley. Local growers discussed the subject from their standpoint and experience and the farm advisor had an expert from the Extension Service. "The Romance of Sleepy Hollow," was shown in a film and the social committee served lunch. Boys' club work was taken up at this meeting and members enrolled.

Mrs. C. W. Sanders went to Ukiah Saturday to be with her daughter-in-law, Mrs. Leo Sanders, who underwent a slight operation that day. C. W. Sanders motored to Ukiah for them Sunday and Mrs. Sanders will be their guest here until she is over the effects of the operation. Her mother is also here from Sacramento. As Mr. Sanders still has a bad arm, Edward Gowan drove his car over for him.

The Dorcas Aid society is planning a box supper on March 17. Keep the date in mind. It will be a St. Patrick day affair.

Last Friday evening, Rev. and Mrs. Lippert entertained with a valentine party at the manse. There were about twenty-five invited guests —Christian Endeavorers and high school students. The house was beautifully decorated, in keeping with the season, the work of Mrs. Lippert assisted by the young ladies. Very attractive refreshments were served, such as heart shaped sandwiches, etc., besides two huge heart shaped cakes. The young folks are enthusiastic about the good time they had.

Sunday, February 12, J. S. Rohrbough had a birthday. Mr. and Mrs. Evan Rohrbough planned to give father a surprise. Accordingly they invited him to eat dinner with them that evening. The surprise came when he arrived and saw spacious tables spread. "Huh!" he remarked, "you must be going to have guests," and there were, eighteen in all. Two large turkeys graced the table. Place cards were hand painted and from China, the gift of Adelaide's brother, Captain Morrison. The favors were baskets of salted almonds and after-dinner mints. The guests gasped at the beauty of the cake, a work of art composed of three loaves in a tier smaller than the one below, iced of course, and decorated with 38 candles. "That isn't right," said J. S., "I am older than that." "Oh' they are not for the years that are past" explained the hostess, "but for the years that are to come." Those present were Mr. and Mrs. J. S. Rohrbough, Beverly, Shirley, Phillip and John D. Rohrbough, Messrs. and Mesdames D. T. Johnson, G. M. Biggar, and J. B. Bellatti, Miss Cary, Alice Jane Bellatti, Betty Johnson, the host and hostess and their daughter, Myrtle Catherine.

Mrs. Lippert entertained her Sunday school class Saturday afternoon at the manse. The girls played games, there were refreshments and all had a jolly good time.

There will be another party at the manse Friday night of this week when Mr. and Mrs. Lippert will entertain the Junior Endeavorers with a valentine party. That there will be the usual happy time, there isn't a doubt. The house will be decorated and there will be refreshments to delight the inner boys and girls. These wholesome happy parties at the manse are much appreciated by the young folks.

The night school shop class has increased in numbers to eleven members, and it is said they are learning to make everything from ferneries and clocks to furniture. Six ladies are enjoying this manual training privilege. They meet on Monday and Wednesday nights.

She came here with her son's family and located in the hills near town in the fall of 1924. She was born in Ohio, September 30, 1852. The funeral services were held at the Presbyterian church Sunday afternoon at 2 o'clock and interment made in the Covelo cemetery. George Fronk, of Oakland, came and also relatives from Oakland. The family is very appreciative of the kindness of friends and neighbors in this time of sadness, and the sympathy of the entire community goes out to the sorrowing ones.

Little Theodore Hill, an Indian boy, was buried Tuesday. No particulars are known at this time. The funeral services were held at the home, Rev. Schillinger officiating. He had injured his back in a fall from a horse, death resulting from the injuries. He was a member of the second grade class of the reservation school.

The executive board of the Women's club met Monday afternoon to complete arrangements for the banquet they are giving to entertain the husbands of the club members, on Friday, February 24, at the grammar school auditorium. This affair is intended by this group to interest the husbands in the work of the club, as well as furnish a happy social time honoring the men. There will be a program following the dinner, which will be served in sections, at 6, 6:30 and 7 p. m., on account of the limited serving space. The executive board will be at the domestic science room at 2 p. m. Friday afternoon to arrange the table and make all necessary preparations. All those contributing canned goods or anything not to be served warm, are requested to have the items there at that time, or if more convenient, leave them at Biggar's store where they will be called for. The committee will appreciate this cooperation. The members of the board are Mesdames B. L. Hurt, Will Osborne, R. M. Anderson, Geo. Goforth, J. S. Rohrbough, Lester Fitzhugh, G. F. Johnson and J. B. Bellatti.

HECKE WARNS RANCHERS

SACRAMENTO, Feb. 14.—With a knowledge that foreign and domestic competition will be keener this year, G. H. Hecke, director of the state department of agriculture, today advised all California growers to familiarize themselves with world market conditions with an object to create new demands for state products.

Hecke warned rice growers who have prospects of an increased crop to be on the outlook for a new market as Japan, with a bumper crop this year, will not offer the market possibilities she did last year when the Japanese crop was small. Overproduction in onions, deciduous fruits, citrus fruits and canteloupes is also expected and local growers are warned against increasing production.

HOOVER A GOOD BET

The best bet in the Republican party for the presidential nomination at the present time seems to be Herbert Hoover. Hoover is a level-headed business man, just the type needed at the present time to work out the farm relief problem and to deal with the other pressing questions of Mexican immigration, Boulder Creek project, Mississippi flood relief, etc. In spite of the fact that the politicians are opposed to Hoover his campaign is gaining impetus daily. In fact, it is booming along almost too smoothly and threatens to reach its climax too soon before the convention. However, Hoover may surprise the experts and keep increasing his lead clear up to convention time. If this happens nothing can beat him for the nomination.

Not only from the standpoint of ability, but also from that of the best interests of the party, Hoover would seem to be the logical candidate. We believe he is the only man in the Republican party who can beat Al Smith if Smith gets the Democratic nomination. Both are popular figures. The names of both are household words throughout the length and breadth of the land. But there is a large contingent of Democrats who are not going to stand for Smith, partly on account of his wet sympathies and partly on account of his religion. To this portion of the Democratic party Hoover will be an acceptable alternative. It must not be forgotten that the Democrats came near nominating him as their own party candidate just after the war. The only thing that prevented it probably was the fact that he refused to be a candidate. The majority of Democrats have a warm spot in their hearts for Herbert Hoover and those of them who do not care for Smith will vote for Hoover without the least hesitation and without any necessity for a compromise with their consciences.

If Al Smith is nominated on the Democratic ticket the Republicans are going to need a lot of Democratic votes all over the nation to offset the prospective Smith landslide in the northeastern states and it is our belief that Hoover is the only Republican who can capture these votes. Hoover, while not rabid on the prohibition question, is sufficiently dry to hold the dry vote and, if the wet and dry issue becomes paramount, which is likely to be the case, may break into the "solid south" quite substantially.

Last week in this column we pointed out that Smith is the only logical candidate for the Democrats to nominate. Hoover appears to us to be the only logical candidate for the Republican nomination. If these two "logical candidates" are successful in landing their respective party nominations, the contest next fall should be the most interesting since the first time Woodrow Wilson was nominated.

WASHINGTON'S TASK

February 22 marks the 196th anniversary of George Washington's birth and the annual observance of that important date calls forth the usual eulogies and discussions which serve to keep his memory fresh in the minds and hearts of his countrymen.

But the ordinary birthday oration generally fails to bring out many of the striking features of Washington's truly remarkable career. His achievements are duly stressed, but the seemingly insurmountable obstacles which he had to meet are seldom given the attention they deserve, except possibly the story of Valley Forge.

It was Washington's lot to create an army out of most uncompromising material; to supply and feed it from the most meager resources; to withstand the vicious attacks upon his policies and character by the infamous "Conway Cabal," which sought to depose him as commander-in-chief in favor of Gates, and to be hampered by antagonistic public clamor and the "impotence of the fugitive Congress."

His burdens were further increased by the difficulties of recruiting, the treachery of Lee at the battle of Monmouth, the treason of Benedict Arnold, a revolt by Pennsylvania troops at Morristown and by a part of the New Jersey contingent.

In spite of all these and many other trying conditions, Washington pressed on with grim determination until the arrival of aid from France in 1778 presaged final victory.

After independence had been won, fresh troubles arose through dissatisfaction among the unpaid troops which led them to form a plan to overthrow Congress and erect a new government, a plan which was sternly repressed by Washington. The breakdown of the government under the Articles of Confederation brought Washington from his retirement to take the lead in establishing a more stable system under our present constitution and to serve as President for eight years, during which he faced violent opposition at various times.

The true measure of Washington's greatness, then, is not merely what he accomplished, but it involves also the almost insuperable obstacles which he overcame in its accomplishment. When these are known and understood, we may form a more adequate conception of his tremendous task.

PIGEONS TAKE MESSAGE TO DEPARTING VOYAGERS

Ukiah Friends Send Farewells to Mr. and Mrs. Jamison

Carrier pigeons carried greetings from Ukiah and Ukiah Chamber of Commerce to Mr. and Mrs. George Jamison on board the S. S. California, the wonderful new liner of the Panama Pacific line which sails today from San Francisco harbor following an enthusiastic reception from the City by the Golden Gate.

Five pigeons, two of which carried messages of good will to the Jamisons were released from the chamber of commerce in Ukiah Thursday afternoon. Immediately upon being released the pigeons circled above Eversole's store about five times and then flew due south as straight as an arrow flies.

The messages sent to the travelers on board the finest liner in the world were signed by the secretaries of the chamber of commerce and of the Lions' club. They were addressed to Mr. and Mrs. George Jamison, S. S. California, Panama Pacific Line, Pier 22, San Francisco. The message from the chamber of commerce read as follows: "Dear Friends: Ukiah and the Ukiah Chamber of Commerce convey to you through our messenger of the air sincere wishes that you may enjoy every moment of this epochal voyage upon which you start tomorrow. May our heartfelt greetings and wishes for the improved health of Mrs. Jamison be with you as the mighty liner leaves her dock."

The Lions' club wished the travelers "Happy Voyage and Safe Return."

Mr. and Mrs. George Jamison left Ukiah Thursday morning and sail today on the California through the Panama canal to Cuba and thence to South America. Dale was a member. The services by the Grange were very impressive and beautiful.

Mr. Dale was a good neighbor and friend, strictly honest in all his dealings, a man who stood by his convictions if he believed he was right in spite of all opposition. For that reason he made a few enemies; nevertheless Mr. Dale was a good and just man, close in his dealings to a penny, but accorded the other man the same privilege.
